MOHAMED WAHEED KHALIL EISSA

New Cairo, Cairo, Egypt | +20 112 370 3752 | mw5790722@gmail.com | linkedin.com/in/mohamed-waheed-a42bb4204

PROFESSIONAL SUMMARY

Computer Engineering undergraduate at the German University in Cairo with hands-on experience in machine learning, cybersecurity, network administration, and project management. Demonstrated ability to deliver technical projects across database engineering, system design, and UI/UX. Proactive learner with strong communication skills and international internship experience.

EXPERIENCE

Project Management & Database Administration & Network Security Intern

Elsewedy Electric | Egypt | August 2025

- Supported project management activities including scheduling, tracking milestones, and coordinating cross-functional teams.
- Assisted in database administration tasks including data integrity checks, query optimization, and database maintenance.
- Contributed to network security initiatives, monitoring infrastructure, and assisting with vulnerability assessments.

Data Mining & Machine Learning Intern

Graphic Era University | Dehradun, Uttarakhand, India | July 2024 – August 2024

- Applied data mining techniques and machine learning algorithms to analyze large datasets.
- Gained hands-on experience with model training, evaluation, and data preprocessing pipelines.

Junior Teaching Assistant – Concepts of Programming Languages (CSEN 403)

German University in Cairo | Cairo, Egypt | 2023 – 2024

- Assisted students in understanding programming language paradigms and course material.
- Supported grading and lab sessions for the course.

Freelancing Initiative Participant

ITI (Information Technology Institute) | Egypt | January 2025 – April 2025

- Completed ITI's freelancing program, developing skills in remote project delivery, client communication, and self-managed work delivery.

PROJECTS

Database Engine Project (CSEN 604)

German University in Cairo | |

- Designed and implemented a database engine from scratch, covering storage management, indexing, and query processing.

Process Scheduler & Memory Simulator (CSEN 601 / 602)

German University in Cairo | |

- Built a process scheduler and memory simulator with hazard detection and resolution mechanisms.

UI/UX – Internship Website (CSEN 603)

German University in Cairo | |

- Designed and prototyped a full internship management website applying user-centered design principles.

FPGA Pet Companion – Digital System Design (CSEN 605)

German University in Cairo | |

- Developed an FPGA-based interactive pet companion project, implementing hardware logic and real-time interactions.

Game Development – CSEN 401 (Team 60 – 3rd Place)

German University in Cairo | |

- Achieved 3rd place in the game development course, contributing to game logic and mechanics.

EDUCATION

Bachelor of Science in Computer Science & Engineering

The German University in Cairo | Sep 2022 – Jun 2027 (Expected)

Relevant Coursework: Programming Languages, Database Systems, Operating Systems, Digital System Design, Computer Networks, UI/UX Engineering, Machine Learning

CERTIFICATIONS & TRAINING

- **AI, Machine Learning & Deep Learning** – NTI (National Telecommunications Institute) | August 2025 – September 2025
- **Freelancing Professional Program** – ITI (Information Technology Institute) | January 2025 – April 2025
- **CCNA: Introduction to Networks** – NTI (National Telecommunications Institute)

TECHNICAL SKILLS

- **Programming & Development:** Python, C, C++, Java, JavaScript, Assembly, VHDL/FPGA
- **Machine Learning & Data:** Data Mining, ML Model Training, Jupyter Notebook, Data Preprocessing
- **Cybersecurity:** Reverse Engineering, Virtual Machines, WSL, Assembly Analysis, Network Security
- **Networking:** CCNA (Routing & Switching), Network Administration, Network Security Fundamentals
- **Databases:** Database Administration, Query Optimization, Database Engine Design
- **Project Management:** Project Scheduling, Milestone Tracking, Cross-functional Coordination
- **Quantum Computing:** Quantum Algorithm Concepts, Qiskit / Jupyter Notebook
- **Design & Other:** UI/UX Design, Game Character Design, Game Environment Coding & Animation

STUDENT ACTIVITIES & LEADERSHIP

- **Brand Director – AIESEC:** Led branding strategy and communications for the AIESEC local chapter, managing the organization's visual identity, marketing campaigns, and brand consistency across channels.
- **Member – Cybersecurity Track – IEEE Cyber Security Club:** Engaged in reverse engineering challenges, virtual machine environments, WSL, and low-level assembly analysis.
- **Member – VGS Game Development Club:** Designed game characters and coded environments and animations for club game projects.
- **Security Council Member – MUN (Model United Nations):** Represented countries in simulated Security Council sessions, debating international issues and drafting resolutions.
- **Member – Qbit – Quantum Computing Club:** Explored quantum computing concepts and solved algorithmic problems using Jupyter Notebook; studied quantum security applications.

LANGUAGES

- **Arabic:** Native
- **English:** Full Professional Proficiency
- **French:** Limited Working Proficiency
- **German:** Limited Working Proficiency
